

Back to Zero

Written by Brad Thomas

Verse 1

My pulse is low, the chains that hold me too
No time to close my eyes
No doors to walk me through
I need to let it go, of this emptiness inside
I never felt so low
Just close your eyes

Bridge 1

Then do you see, what I see when you're alone
Do you feel, what I feel when you're alone

Chorus 1

I may fall
And I may break
But it's never over and it's never too late
When you're kneeling on the ground
You're back to zero
Just go back to zero

Verse 2

There's no time to feel, no time to understand
The reasons that I know
Are the reasons that I am
So why can't I let it go
Of this emptiness inside
I never felt so low
Just close your eyes

Bridge 2

Then do you feel, what I feel when you're alone
Do you know what it's like to be alone

Chorus 2

And I may fall
And I may break
But it's never over and it's never too late
When you're kneeling on the ground
You're back to zero
Just go back to zero

End Bridge

All these lies that I've been told, I must be hypnotized
Everything I understand, help me realize
I need to let go

Final Chorus

And I may fall
And I may break
But it's never over and it's never too late
When you're kneeling on the ground
You're back to zero
I'm Back to Zero
